***Data Acadience Math and Reading**

Acadience math is new this year. Data showed that Farr West Students scored above the district average. The IXL program is used to meet the needs of all the students where they are. Whether they are a struggling student or a student needing more, the IXL program differentiates wherever the students are.

There was a significant drop in Acadience reading scores. This is most likely due to the Covid and the shortened school day. The school is working hard to catch these struggling students and fill in the gaps they are missing,

***Panorama**

Social/Emotional Health Survey: Grit and Emotion regulation are 2 areas we are focusing on that were areas of concern. Mrs. Short is directing her lessons with the students on these areas of concern.

- **Leader In Me Action Teams**
300 to 400 Students are on the action teams in the upper grades. The younger grades are involved as well but they are leaders within the classroom. The "Heroes" week was the concept of students under the direction of advisors. The program focuses on the 7 habits for highly successful people. It is exciting to see the students start to use the vocabulary. Weekly Lessons are taught on the seven habits.
